

PRODUCT OWNER

This person is passionate about developing products that customers love. This person can effectively work across various departments like engineering, design, marketing, and sales to prioritize, coordinate, and manage product development. This person understands customer needs, market trends, and business objectives and can prioritize product-development requirements to capitalize on business opportunities. The product owner will take ownership of delivering a great product while balancing the technical-resource cost of new features to maximize return and customer satisfaction.

Responsibilities

The product owner:

- Prioritizes and manages product development efforts by balancing feature requests, product issues, customer requirements, and business constraints
- Creates detailed product requirements of new features, API capabilities, SDK interfaces, and develops framework integrations
- Works with users to identify needs, develop user stories, and conduct beta testing
- Works cross functionally between engineering, design, marketing, and sales to build and launch products
- Prioritizes backlog
- Translates business strategy into the product roadmap
- Articulates trade-offs and business cases for new features

Experience

This person must have:

- Experience creating user-centric products with exceptional UX, UI, or both
- A strong understanding of all aspects of the product-development lifecycle, including product strategy building, defining the requirements, UI/UX, engineering, QA, and product release
- A proven track record of working with designers, engineers, and various stakeholders to coordinate, plan, execute, and track product releases from conception to launch
- Experience managing technical teams and coordinating development priorities

Bonus Qualities

It would be nice for this person to have:

- Experience with health care, wellness, and wearables
- Experience with startups
- Experience in digital health and wellness
- Knowledge of chronic care management and healthcare practices

ADYPTATION

We are looking for team members who:

- Are excited about our mission and are aligned with our values
- Love learning, growing, and who can adapt to change
- Communicate effectively
- Take ownership and responsibility over their work
- Are driven toward excellence
- Want to add value to the world and participate in meaningful work
- Enjoy collaborating with a team and value the contribution of others
- Are kind
- Enjoy working in an outcomes-driven environment

Benefits

Join our team, and you can:

- Be a part of a passionate team solving meaningful problems in healthcare
- Get involved on the ground floor with a younger business
- Be a key team member and shape the development of our company

Our team members enjoy:

- Medical, dental, and vision coverage (75% paid by the company)
- Paid vacation and holidays
- Flexible work options, including early or late hours and remote work

About Us

Adyptation is a young, fast-growing business located in Miamisburg, OH. We provide software and data analytics for healthcare providers to support patient health tracking and ongoing care management. We specialize in transforming data into insights for difficult-to-manage conditions like autoimmune disease.

Our Vision

We envision a world where underserved patients receive precise care and are restored to engage fully in their lives.

Our Mission

Our mission is to improve the treatment and diagnosis process for difficult-to-manage conditions like autoimmune disease. We develop solutions to capture insights on patients' health that lead to more precise and effective care.

Our Values

Blaze New Trails

We are not satisfied with the standard way of doing things. We want to play a part in creating a new world. We take risks and venture into uncharted territory.

Enjoy the Journey

We take on challenging problems that require significant time and effort to solve. We are committed to making consistent progress and celebrating the journey along the way.

Benefit Others

We are committed to being responsible stewards and serving our employees, customers, investors, partners, and communities. We are passionate about generating a net-positive effect in healthcare by improving patient quality of life and reducing the economic burden of care.
