

## FULL STACK DEVELOPER/SOFTWARE ENGINEER

This person possesses a passion for building software and enjoys working with the latest technology. This individual should be language-agnostic and comfortable with database management, full stack ownership, automation, testing, and optimization. This role involves both product maintenance and on-going feature development as the software grows.

### Responsibilities

The full stack developer/software engineer:

- Designs, architects, and deploys solutions for the software product
- Builds and maintains a continuous-deployment pipeline
- Implements new feature development, maintains existing codebases, and integrates third-party SDKs/APIs
- Provides level-of-effort estimates and participates in planning sessions with leads and project managers for upcoming feature releases
- Collaborates with key stakeholders

### Experience

This person must have:

- At least 3 years of experience with developing production-level systems
- Experience with Git
- Experience with Node.js, Python, or any object-oriented language
- Experience with HTML/CSS, JavaScript, and React
- Cloud experience, preferably AWS
- SQL & NoSQL Experience

### Bonus Qualities

It would be nice for this person to have:

- A BS or an MS in Computer Science or a related technical field
- Experience with AWS Amplify, AWS Cognito, AWS DynamoDB, Route 53, CloudFront, Amazon Athena, SageMaker, AWS Glue, and S3
- Experience with D3.js
- Experience with GraphQL
- Experience with Mobile Development (iOS, Android, React Native)
  - Familiarity with Deployed Mobile app in Google Play or the App Store
  - Familiarity with Apple HealthKit, Researchkit, and Carekit
- Experience with Photoshop or Illustrator
- Experience with Google Fit, Fitbit, Alexa, Twilio
- Experience with WebRTC
- Experience with distributed streaming (Apache Kafka, Amazon Kinesis, etc.)
- Experience with MQTT protocol, Internet of Things (IoT), and embedded programming
- Experience with HIPPA and Electronic Health Records
- Interest in machine learning/data science
- Interest in chatbot development

# ADYPTATION

## **We are looking for team members who:**

- Are excited about our mission and are aligned with our values
- Love learning, growing, and who can adapt to change
- Communicate effectively

- Are driven toward excellence
- Want to add value to the world and participate in meaningful work
- Enjoy collaborating with a team and value the contribution of others
- Are kind
- Enjoy working in an outcomes-driven environment

## **Benefits**

Join our team, and you can:

- Be a part of a passionate team solving meaningful problems in healthcare
- Get involved on the ground floor with a younger business
- Be a key team member and shape the development of our company

Our team members enjoy:

- Medical, dental, and vision coverage (75% paid by the company)
- Paid vacation and holidays
- Flexible work options, including early or late hours and remote work

## **About Us**

Adyptation is a young, fast-growing business located in Miamisburg, OH. We provide software and data analytics for healthcare providers to support patient health tracking and ongoing care management. We specialize in transforming data into insights for difficult-to-manage conditions like autoimmune disease.

## **Our Vision**

We envision a world where underserved patients receive precise care and are restored to engage fully in their lives.

## **Our Mission**

Our mission is to improve the treatment and diagnosis process for difficult-to-manage conditions like autoimmune disease. We develop solutions to capture insights on patients' health that lead to more precise and effective care.

## **Our Values**

### **Blaze New Trails**

We are not satisfied with the standard way of doing things. We want to play a part in creating a new world. We take risks and venture into uncharted territory.

### **Enjoy the Journey**

We take on challenging problems that require significant time and effort to solve. We are committed to making consistent progress and celebrating the journey along the way.

### **Benefit Others**

We are committed to being responsible stewards and serving our employees, customers, investors, partners, and communities. We are passionate about generating a net-positive effect in healthcare by improving patient quality of life and reducing the economic burden of care.
